

## Facial Features Notes

### Eye:

- 1/5 of the eye is covered by the upper eyelid.
- The “white” of the eye isn’t actually white.
- The highlight on the eye is the only truly white.
- The pupil of the eye appears black because it is a hole.

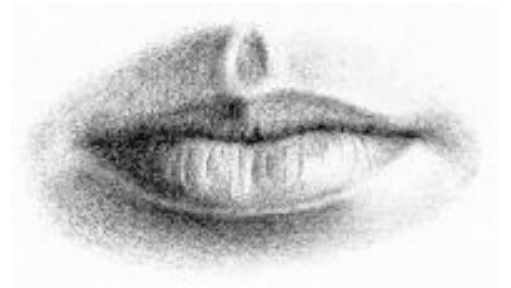

### Nose:

- The covering over the nostrils is called the nares.
- The nose is drawn using shading and value.

### Mouth:

- The top lip is darker & thinner than the bottom lip.
- The only clean line is between the two lips.
- The highlight is on the bottom lip.
- There is a light line across the top of the upper lip.

### Ear:

- One ear is usually higher or larger than the other
